

## About Evercore

Our Business

Executive Team

## Overview

Evercore is a premier independent investment banking advisory firm.

We founded Evercore in 1995, on the premise that clients would be best served by an investment banking firm free of the conflicts of interest inherent to large, multi-product financial institutions. We believed our model would attract the most talented senior finance professionals to our firm. We believed that by maintaining the highest standards of excellence we could create a firm unlike any other in terms of capabilities to advise on highly complex strategic transactions, dedication to our client and our experience and professionalism.

Today, we serve a prominent and diverse set of clients and investors, including leading multinational corporations, large institutional investors and financial sponsors, and high net worth individuals.

**Investment Banking Advisory Services** ~ \$1.5 trillion in announced transactions:

- Mergers and acquisitions
- Divestitures and restructurings
- Financings, public offerings, private placements and other strategic transactions
- High quality research, sales and trading execution

**Investment Management Services** ~ more than \$13 billion in assets under management:

- Institutional asset management
- Wealth management
- Specialized investment management, independent fiduciary and trustee services
- Private equity funds management

Our global expansion continues in order to ensure the worldview and international knowledge base that is now critical to all investors. Today, our offices in the U.S., the UK, Mexico, Brazil, Hong Kong and Singapore are complemented by strategic alliances with leading firms in China, Japan, India, Korea and Argentina.

We always strive to enhance our capabilities and expand our global reach thereby providing the highest caliber of various services to our clients.

*Best-in-Class is a  
Journey and a  
Commitment*

### Careers

#### Join Our Team

Evercore is growing rapidly in all practice areas and in the global markets in which we operate. To maintain the high standard of excellence we provide our clients, we frequently seek exceptional, experienced executives to join our team and outstanding candidates to enter our Intern, Analyst and Associate programs.
